CAREER OBJECTIVE

QA Automation Engineer with 1+ years of experience in test automation, Agile methodologies, and quality assurance. Successfully completed a Fellowship Program in QA Automation (SDET) with hands-on experience in full-stack automation testing. Proficient in **Selenium, Playwright (JavaScript), Java, API Testing, MySQL, and OOPs concepts**. Seeking to enhance software quality and efficiency in a dynamic organization.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, HTML (Basics)
- **Automation Tools:** Selenium, WebDriver, Playwright (JavaScript), TestNG, Rest Assured, WebDriver Manager
- **Frameworks:** Page Object Model, Apache POI, Log4j, Extent Reports, Grid
- **Processes:** Agile, SDLC, STLC
- **Database:** MySQL
- **Tools:** Git, GitHub, Jenkins, Gradle, Postman, VS Code, Eclipse, JIRA
- **Concepts:** Object-Oriented Programming (OOPs)

EDUCATION

- **ME - Control System** | CGPA: 7.9 (71%) | 2016
- **BE - Electrical, Electronics & Power** | 76% | 2013

EXPERIENCE

QA Engineer

Satyukt Analytics | Nov 2023 – Present

- Developed and executed end-to-end automation testing for web portals using **Selenium WebDriver**.
- Conducted mobile application testing to ensure smooth functionality across devices.
- Automated **API testing using Rest Assured** and database testing with MySQL.
- Implemented test automation using **Playwright (JavaScript)** for modern web applications.
- Integrated automation frameworks with **Jenkins** for continuous testing and deployment.
- Applied **Object-Oriented Programming principles** for efficient automation framework design.

Fellowship in QA Automation

Crio.Do | Sep 2022 – Nov 2023

- Completed industry-grade projects and hands-on labs focusing on **end-to-end test automation**.
- Gained expertise in designing **robust and scalable test automation frameworks**.

PROJECTS

QTrip - Adventure Booking Platform | Apr 2023

Tech Stack: Java, Selenium, TestNG, Page Object Model, Extent Reports

- Developed a scalable **test automation framework** and automated key user flows.

QKart - E-Commerce Platform | Jan 2023

Tech Stack: Java, Selenium, Apache POI, TestNG

- Automated and optimized **e-commerce workflows** using **Selenium WebDriver**.
- Migrated tests to **TestNG framework** and implemented **data-driven testing** with Apache POI.

CERTIFICATIONS & ACHIEVEMENTS

- **Masters in QA Automation – Crio.Do**
  - Hands-on experience in **full-stack test automation**

ADDITIONAL HIGHLIGHTS

- Strong **analytical and problem-solving skills**
- Excellent **collaboration & communication** in Agile environments
- Passionate about **continuous learning and professional growth**
